

Congratulations
on outstanding UPSR result!

1.64 Grade Point Average
100% pass rate for all subjects
86% achieved A for English and Maths

We have some fantastic news which we want to share with you! We are really very proud to have achieved the best UPSR results ever for Matrix Global Schools. 14 students took the examination in 6 subjects and we have **4 students who scored 5 As and 1B!** They are **Adam Ammar, Jayprasaadh Nair, Mohamad Syahrul Ikram and Prishha Maayah Saththian**. On top of that, we also have **another 4 students with 4 As**. The pass rate is 100%. The grade point average (GPA) of 1.64, compared to 2.11 last year, is the best ever since the school started in 2014. Wonderful!

Congratulations to our star students for this superb performance. To all the primary school staff, a huge 'thank you' for your enormous effort. And special appreciation to our parents who have put their trust in our school and given their unwavering support for us to bring out the best in their children.

What's our formula for success? Hard work, expert guidance and constant tracking of our students' progress. The excellent UPSR results show how all this makes a difference. Well done, everyone!

MIS Early Years Concert & Graduation

“

**We are all perfect beyond our imperfection ,
why do we need to fit in when we can stand out.**

The above is the beautiful message sent out by our preschoolers during our very successful Matrix Early Years' concert and graduation. The children were fantastic, perfectly at ease on the stage and thoroughly happy and enjoying themselves. These 23 children have graduated and will be moving on to their primary schools to take on new challenges on their journey of learning.

As we approach the end of another busy year, I would like to take this opportunity to thank all parents and guardians for the support that they have given to the school. We are looking forward to introducing more exciting learning opportunities for our young ones to better equip them for the 21st century.

These will include coding for our extended ICT programme, exciting outdoor activities like water play, sand play and sensory play. We are also introducing reading books for Malay, English and Mandarin Language.

We are keen to work closely with parents, and the community to ensure the success of our school curriculum and programmes. Happy holidays to all of you and we look forward to a better and a more fruitful year in 2020!

Adrinna Pierre
Head of Early Years

MIS Primary Year 4 Class Assembly & IPC Exit Point 'Electricity and Energy'

Imagine life without electricity.
Electricity has been around for eternity.
Electricity powers our modern lifestyle.

In our home, work, travel and leisure time, most of us are dependent on electricity. It is hard to imagine our lives without it – we would be stumbling in the dark. However, we only need to go back 200 years to find everyone living without any electricity. They used other things instead like candles for lighting; wood for heating, and horses for transport.

During the assembly and exit point, our very own Year 4 kids from MIS Primary had an "Iconic Super Walk" to give thanks to all the people who invented electricity that gave the spark to our lives. They also 'electrified' their guests by their energetic dances, skits, songs and rap related to what they had learned from the unit 'Electricity and Energy'. Keep your light burning, Year 4!

MPS Primary Post UPSR Maths Project 'Geometry Origami'

After our UPSR examination, our Mathematics teacher introduced us to geometry origami. We had to choose a model, make it and present it to the class using powerpoint slides. We learned a lot about how shapes fit together to make geometric patterns, the art of origami and perfecting our presentations with the help of visual aid.

The process was quite difficult, but we managed to handle the pressure and did not give up. We know that success does not come the first time we do it. What is important is we tried again and again. By the third day, most of us had managed to complete the model.

MPS Primary End-of-Year School Trip

The Primary students of Matrix Private School had an adventurous trip to Super Park, Avenue K on 19 November. They enjoyed the all-in-one indoor activity park that was filled with many energising and fun activities to try out. They had a different experience out of the classroom that challenged their physical and mental skills, as well as stamina. The students were tired but they surely enjoyed this unique experience!

MPS Secondary Malay Language Department Production

Form 3 and Form 4 students put up a brilliant performance for the MPS Bahasa Melayu Department end-of-year mini production.

Form 3 students did a wonderful tribute to the late Sudirman by narrating his life and contributions to the country's music industry, and alternating it with energetic performances of Sudirman's famous songs. A special mention goes to student, Shaikh Amir, who still showed up to perform despite having hurt his knee during a practice session (no one can hold Sudirman's high notes as well as he).

Form 4 students' theatrical performance of 'Pak Pandir' was another major hit! The silliness of Pak Pandir's character as portrayed brilliantly and spontaneously by Harin Ravandaran had the auditorium filled with squealing laughter. The colourful musical performance was mesmerising as it portrayed the country's folklore in an entertaining setting.

MGS Education Fair

On 20 November, the school held its first campus-wide Education Fair with the aim of exposing our Secondary students to the options available to them for tertiary education. This would help them in planning their subject options in Upper Secondary as well as motivating them to work towards their higher education goals.

Feedback from the university counsellors revealed that they were impressed with our students who were well-versed about their options though still in Year 9.

A total of 19 universities and education consultants participated in the fair, and it is hoped that the Education Fair will be maintained as a yearly event of the school.

MGS Swimming Gala

The school's first Swimming Gala took place on 18 November at d'Tempat Country Club. Although we have held swimming competitions before during Inter House Games, this event is different as it solely focuses on the sport in a tournament setting to prepare students to represent the school in swimming competitions for 2020.

Students competed in various categories for U10, U12, U15 and U18 in freestyle, breaststroke and medley tournaments. Medals for the winners will be given out next week during school assembly.

KIM GEONWOO, Year 4

Congratulations to Kim Geonwoo in Year 4 for receiving the AirAsia KL Junior League U8 Golden Boot award. Playing for the KDH Global FC, Roddy, as we fondly call him, earned the award for scoring 15 goals over 7 matches played in the 2019 season of the league!

The AirAsia KL Junior League is Malaysia's premier soccer development competition introduced in 2015. The league offers matches across ability-based divisions in 5 open age groups, including 3 girls-specific age groups with more than 90 football teams across Klang Valley participating.

KDH Global FC, with a football academy based within MGS grounds, has been gaining a big reputation in the league by becoming champions across the categories, namely: U-12 D4 LEAGUE champion, U-12 D3 PLATE CUP champion and U-8 D2 LEAGUE champion.

We hope the football club will groom more football stars within MGS.

MGS Primary PE STARS OF THE WEEK

Every week, MIS PE Department will award deserving students a star based on their behaviour, effort, performance and improvement in the class. MIS Secondary winners are posted on @mgs_sports Instagram while Primary winners will be shared in the newsletter for young students to view.

Kim Jaeon, Year 2

Lim Zen Hung, Year 6

Ranveerjiet Singh, Standard 3

Chia Ler Tian, Standard 5
